ANIMAL HEALING TESTIMONIALS

Gomez Happy Bunny

November 16 2024

Miriam

I got a second session for my rabbit..the vets were not as helpful as Tapas! I am so happy I did The change was instant and I even felt so calm and peaceful lol (I needed to relax too lol) My rabbit energetic field, mine and even my room feels clean, free...no joke after sessions with tapas...love it and grateful 4ever!

T.A.T for my Bunny :)

November 3 2024

Miriam R

I had a session for my rabbit a couple of days ago.... Beautiful! I can definitely see a difference in my baby :) I am grateful with Tapas work

TAT Session with cat

July 21 2024

Brian L

My cat is 16 years old and is suffering from seizure and stomach issues. TAT sessions with TAPAS has helped him to be more energetic and helped him to have a better quality of life. We have had two sessions so far. Looking forward to work with Tapas again soon!

Amazing!--for my cat, too!

May 8 2024

Wendy S

Tapas's work is extraordinary and effective. I started our session feeling low, depleted, sunken inwards, foggy, confused and churning in heavy thoughts. After her focused attention and work together, I could feel this stiffness and grogginess within soften and melt. My perspective shifted and I had more "light" and energy to be active again. It was amazing. And then, the same (or similar) thing happened with my cat! Tapas graciously offered to include my cat (who I was worried about) in our

healing work. Lo and behold, afterwards (and including today, 24 hours later) my cat is seeming more alert, light hearted and also filled with a more fresh and less encumbered energy. I am in awe. Highly recommend Tapas' discerning and effective energetic work. Can't wait to do more. . To my surprise, Tapas was also able to work with my cat, about whom I'd been worried. And by the end of the session and including all day today my kitty has also felt lighter and more ease in his movements and alertness. I couldn't be more grateful. These sessions work!

My cat Zebra

October 1 2022

Elisabeth K

My daughter's cat was jealous of my granddaughter from birth. After 1 year I took her with me but you could see that she was not really happy. She even ruined a carpet I played with my granddaughter on. The cat had 1 session and I have the impression that the cat is now calmer and a bit happier with the situation. I'm glad I did and that there is a change.

Tapas and TAT are THE BEST HELP

July 19 2022

Cjrd

So grateful and thankful for Tapas and her wonderful TAT, which have helped me and my kitties several times over the past fifteen years, completely getting rid of negative stuff, and they do not ever come back (some were so very difficult that I thought impossible to be free of). Tapas and TAT enable us to move forward with joy, freedom, happiness, clarity, and more. Tapas and TAT work! <https://tatlife2.fullslate.com/reviews/#post2027/68>

Powerful healing

May 21 2021

Martina C

Tapas's work is even more powerful these days -- yet gentle at the same time. She gets to the essence of an issue within minutes and facilitates profound transformation. Her work with animals is equally profound. I am always amazed at how effective even a 30 minute session is at removing

My Cat Got TAT!

May 11 2021

Beth S

I've worked with Tapas and had a tremendous breakthrough. This time was for my mature cat that had an aggressive behaviour toward me her beloved. I could sense the cat was torn by this behaviour

as was I. Tapas spent a great deal of time carefully scanning my cat and talking with me. This one session has completely relieved my cat (& me!). Within hours of our session my kitty was entirely different and doing cat zoomies enjoying a newly restored freedom and it has remained so now going on two weeks! I would encourage anyone to have a pet session (any session!) with Tapas. She is soothing and caring, quickly establishing rapport so that a client can connect with her heart. TAT is amazing work and Tapas is herself a GIFT!

Very calm

April 24 2021

Maria S

The healing was about my cat Holy. He hasn't vomited so far, so I think he feels ok :-). What is also impressive is the fact that since then, I also feel very calm, although it's a little challenging period for me. So the benefits were for both of us! Thank you Tapas, it was an honour to meet you! ■

Always a pleasure

April 14 2021

Aj

It's always a pleasure to work with Tapas. She's on time, efficient & insightful. And she's gentle, compassionate & caring. Our session was for one of my dogs who experienced an unidentified injury to his spine/hip/leg. He feels better today and I look forward to his full recovery in the next few days ahead. Thanks, Tapas!

TAT Life Session

November 14 2020

Wendy S

I've had two sessions with Tapas and one for my cat. Both kittie and I have excess weight to lose. Since those sessions, my cat more alert and affectionate. I, too, am experiencing a lighter sense of being and wholeness. Very grateful. Recommend.

Amazing

September 20 2018

Zoey G

I had a session for both my dog and I with Tapas, I could feel the difference in myself even after doing TAT with Tapas for my dog! Tapas is a great Facilitator and I felt very supported during our session. Energy shifted and I was feeling lighter and happier afterwards!

This has really worked for me

September 14 2018

Kim B

I've used tatlife a number of times this year, and her services have really worked for me. This has been a really crappy year losing my sister, my mother, and my show horse within in months of each other has brought up alot of personal issues and this process has been exceptional at reaching those hard to reach places! Thank-you :)

TAT session with my Dog!

December 8 2017

Kymberly V

I had a wonderful session that was centered around my dog and a few health limitations. Tapas was kind and discussed what she saw throughout the session. We worked on my beloved pup and would then check back to see if any additional work was needed. It was a wonderful experience that brought about great results for my guy. Many thanks Tapas for all that you do!

Open Hearts

July 4 2016

Michele

It is always a joy to work with Tapas. This was my first time one on one. After our session together (she also worked with one of my cats) we both have more open hearts and dwindling fear. Thank you, Tapas for your great presence and love.

That unexpected outcome

May 26 2016

Janey

After helping clear my cat, Max of some unfortunate behavior (scratching and peeing inappropriately), I caught a stray cat I thought had moved under our garage! That very night! Max is still getting used to the idea that the cat is gone, but he hasn't peed inappropriately since the rescue took the cat away. He scratched once when he wanted to go out, but ceased when I assured him I would take him as soon as possible. Very grateful for such a quick transformation. Woohoo! Thank you, Tapas!

I see changes

February 11 2016

Bonnie M

Tapas did a session for my cats and dogs to help with some behavioral issues. It was not easy because the cats would not even come out of hiding long enough for her to get a good look at them. Even so over the past two days they have ventured out more and have been seeking more attention. We also have had no more pee accidents on the carpet. Thanks Tapas.

Deep peace

July 30 2014

Becky A

I came in with very long list for the pot, not expecting much. I drove home & took a nap, then felt the need to cleanse my energy with an Epsom salt & baking soda bath. What a surprise I had later that day when I started to feel such a deep peace in all my being & in my energy field. I noticed how I was tolerant of things that used to trigger me. I noticed I had some old patterns of thinking that came up but they no longer held any emotional charge. My awareness is more astute in observing horses in their body language & other animals via very subtle pathways of communication. I am grateful for this simple efficient type of amazing healing. I am happy for the expanded awareness that seemed to increase after the healing with Tappas. IN Deep Appreciation, Becky
